Make your space work®

Find the Right Fit

Comfort and ergonomics matter in the classroom. Picking the right chair for your table or desk should be easy and seamless. When students are positioned correctly, learning begins. Ensure students have the right amount of knee space between the seat and the bottom of the table so arms can rest comfortably on top of the table and the knees form a 90° degree angle.

Recommended space from the chair seat to the underside of the table is 8"-11"
